Staniland Academy Long Term Map - Year 3 Maths (2023/2024)

|  | Week 1 | Week 2 | Week 3 | Week 4 | Week 5 | Week 6 | Week 7 | Week 8 | Week 9 | Week 10 | Week $11$ | Week 12 | Week 13 | Week $14$ | Week 15 | Week 16 | Week 17 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Autumn | Number: Place Value |  |  |  | Number: Addition and Subtraction |  |  | Half Term | Half Term | Number: Addition and Subtraction |  | Number: Multiplication and Division (Week 16 - 3days) |  |  |  |  |  |
| Spring | Number: Multiplication and Division |  |  | Number: Fractions |  |  | Half Term | Measure: Length and perimeter |  |  | Measure: Mass and capacity |  |  | End of term Easter | End of term Easter |  |  |
| Summer | Number: Fractions |  |  | Measure: <br> Money |  | Measure: Time | Half term | Measure: Time |  | Geometry: Shape |  | Statistics |  |  | End of term Summer | End of term Summer |  |

| Number and Place Value | AU | SP | SU | Fractions (continued) | AU | SP | SU |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| - Count from 0 in multiples of $4,8,50$ and 100 ; find 10 or 100 more or less than a given number |  |  |  | - Add and subtract fractions with the same denominator within one whole [for example, five sevenths add one seventh = six sevenths] |  |  |  |
| - Recognise the place value of each digit in a three-digit number (hundreds, tens, ones) |  |  |  | - Compare and order unit fractions, and fractions with the same denominators |  |  |  |
| - Compare and order numbers up to 1000 |  |  |  | - Solve problems that involve all of the above. |  |  |  |
| - Identify, represent and estimate numbers using different representations |  |  |  | Measures |  |  |  |
| - Read and write numbers up to 1000 in numerals and in words |  |  |  | - Measure, compare, add and subtract: lengths ( $\mathrm{m} / \mathrm{cm} / \mathrm{mm}$ ); mass ( $\mathrm{kg} / \mathrm{g}$ ); volume/capacity ( $\mathrm{l} / \mathrm{ml}$ ) |  |  |  |
| - Solve number problems and practical problems involving these ideas. |  |  |  | - Measure the perimeter of simple 2-D shapes |  |  |  |
| Addition and Subtraction |  |  |  | - Add and subtract amounts of money to give change, using both $£$ and p in practical contexts |  |  |  |
| - Add and subtract numbers mentally, including: a three-digit number and ones; a three-digit number and tens; a three-digit number and hundreds |  |  |  | - Tell and write the time from an analogue clock, including using Roman numerals from I to XII, and 12 -hour and 24 -hour clocks |  |  |  |
| - Add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction |  |  |  | - Estimate and read time with increasing accuracy to the nearest minute; record and compare time in terms of seconds, minutes and hours; use vocabulary such as o'clock, a.m./p.m., morning, afternoon, noon and midnight |  |  |  |
| - Estimate the answer to a calculation and use inverse operations to check answers |  |  |  | - Know the number of seconds in a minute and the number of days in each month, year and leap year |  |  |  |
| - Solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction. |  |  |  | - Compare durations of events [for example to calculate the time taken by particular events or tasks]. |  |  |  |
| Multiplication and Division |  |  |  | Properties of Shape |  |  |  |
| - Recall and use multiplication and division facts for the 3,4 and 8 multiplication tables |  |  |  | - Draw 2-D shapes and make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations and describe them |  |  |  |
| - Write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods |  |  |  | - Recognise angles as a property of shape or a description of a turn |  |  |  |
| - Solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence problems in which n objects are connected to m objects. |  |  |  | - Identify right angles, recognise that two right angles make a half-turn, three make three quarters of a turn and four a complete turn; identify whether angles are greater than or less than a right angle |  |  |  |
| Fractions |  |  |  | - Identify horizontal and vertical lines and pairs of perpendicular and parallel lines. |  |  |  |
| - Count up and down in tenths; recognise that tenths arise from dividing an object into 10 equal parts and in dividing one-digit numbers or quantities by 10 |  |  |  | Statistics |  |  |  |
| - Recognise, find and write fractions of a discrete set of objects: unit fractions and non-unit fractions with small denominators |  |  |  | - Interpret and present data using bar charts, pictograms and tables |  |  |  |
| - Recognise and use fractions as numbers: unit fractions and non-unit fractions with small denominators |  |  |  | - Solve one-step and two-step questions [for example, 'How many more?' and 'How many fewer?'] using information presented in scaled bar charts and pictograms and tables. |  |  |  |
| - Recognise and show, using diagrams, equivalent fractions with small denominators |  |  |  |  |  |  |  |

 These are curriculum objectives and what you should be teaching from.
