

### **Coronavirus (COVID-19) Catch-up Premium for The Financial Year Beginning 1 April 2020**

The Secretary of State for Education is providing financial assistance to local authorities for their maintained schools and for pupils that local authorities place in independent special settings, in the form of the coronavirus (COVID-19) catch-up premium for the financial year beginning 1 April 2020.

This funding is to support pupils on their return to school in Autumn 2020 and throughout the year. The Senior Management Team and teaching staff have identified areas where progress has been impacted by children's continued absence from school during the lockdown period. The key areas in children's learning which were affected were Reading, Scientific Enquiry and children's Social, Emotional Mental Health. The funding will therefore be used to support children in these areas.
